

Infrastructure Engineer - Design & Build

e2e-assure are currently recruiting for an Infrastructure Engineer to join the Design & Build Team.

Overview

e2e-assure are actively recruiting Infrastructure Engineers with existing skill-levels to work in a lively and experienced team providing Design, Build support services to our ever-growing portfolio of commercial and government clients. We have developed an industry-leading G-Cloud PaaS and IaaS infrastructure and we provide a number of protective services designed to protect an organisation from cyber-attacks.

We are looking to augment our team with talented individuals who are keen to develop their career in cloud, security and infrastructure.

We will provide the support and guidance to enable you to develop in your role. This includes a dedicated annual training budget.

Key Tasks

- Building and deploying systems and platforms in our private Azure and AWS Clouds
- Offering technical support to internal SOC and private cloud clients

Candidate Attributes

Essentials:

- 5 years residency in UK or pre-existing Security Clearance.
- Linux system administration experience
- AWS or Azure Design Build Security Experience
- Windows 2012 administration experience
- Networking experience, routing switching firewalls Cisco or other
- Excellent attention to detail & keen to learn new skills and work with new technologies

Desirable Experience:

- VMware and/or Hyper-V expert
- Experience working with HMG clients
- Server hardware experience – either HP/Dell/IBM
- Understanding of PKI
- Familiar working within in ISO 27001 framework

Location: Based at our offices in Oxfordshire, however, some travel will be required and a driving license is useful.

Hours: Up to 40 hours per week. The exact time arrangements will be agreed with line management.

Salary and benefits: Competitive salary, depending on experience.

We also offer a training budget, 25 days annual leave, contributory pension scheme, social events.

After being provisionally offered a job, candidates will be DBS and background checked by a third-party, and must be willing to attain SC and NPPV3 clearances (we will put you through this process). Failure to pass these checks may result in your application being discontinued.

We expect e2e-assure employees to have a high standard of personal integrity, both during and outside work time, including how they present themselves online. We may conduct background and open source checks to verify this.
