

Role Description and Person Specification

General tasks, responsibilities, and requirements of the role

Role: **Software Tester**

e2e-assure is a dynamic cyber security company, successfully delivering 24/7 cyber defence to both the public and private sector and expanding rapidly as a result.

We are now looking for dedicated and inspiring individuals to join us across our organisation. We provide a challenging but rewarding environment where you will be expected to develop and learn while playing an instrumental part in helping the company to do the same.

Based at our offices in Oxfordshire you will be working as part of our software development team and seeing the direct impact of your work on colleagues elsewhere in the business on a daily basis.

As a Software Tester for you will be responsible for defining and executing test plans to assure the quality of our core product as well as ensuring it adheres to accessibility guidelines. You will collaborate in the investigation and tracking of software faults and will be given the opportunity to contribute to our suite of automated tests, if necessary, training will be given.

Essential Attributes:

- An interest in improving user experience
- Good communication skills
- Excellent attention to detail
- Excellent English language and grammar

Desirable Attributes:

- Web application testing experience, including Awareness of 508 VPAT or WCAG2.0 accessibility certification
- Proven ability to define and document test plans and results
- Experience tracking software or support issues
- experience of iterative software delivery
- Experience of Selenium or other automation tools

Location:

This role is based at our R&D barn in Oxfordshire. Some travel, including international, may be required.

Hours:

40 hours per week

Salary and Benefits:

Competitive salary, depending on experience. 25 days annual leave, rising to 28 days over time. We also offer relocation allowance, contributory pension scheme, and social events.

After being provisionally offered a job, candidates will be DBS and background checked by a third party and must be willing to attain SC and NPPV3 clearances (we will put you through this process). Failure to attain these clearances may result in your employment being discontinued.

If you do not already hold SC you are required to have 5 years of continuous residency in UK in order to meet customer requirements.

We expect e2e-assure employees to have a high standard of personal integrity, both during and outside work time, including how they present themselves online. We may conduct background and open source checks to verify this.

****e2e-assure is unable to sponsor UK visa applications and all applicants must already have the right to work in UK****
