

e2e Secure Cloud Web Gateway Service – Pricing Document

PRICING

Pricing is based in the number of devices using the system. There are three service levels to choose from and two options available:

Number of Users/Devices	Baseline Per User	Enhanced Per User	Premium Per User	Browsing Image/Virtual browsing appliance Per User	Secure File Transfer
25-50	£ 9.00	£ 11.00	£ 15.00	£35.00	£5,000.00
51-100	£ 8.10	£ 9.90	£ 13.50	£32.00	£5,500.00
101-250	£ 7.29	£ 8.91	£ 12.15	£30.00	£6,000.00
251-500	£ 6.56	£ 8.02	£ 10.94	£28.00	£6,500.00
501-1000	£ 5.90	£ 7.22	£ 9.84	£25.00	£7,000.00
1001-2000	£ 4.72	£ 5.78	£ 7.87	£20.00	£7,500.00
2001-5000	£ 4.43	£ 5.42	£ 7.38	£18.75	£8,000.00
5000+	£ 3.84	£ 4.69	£ 6.40	£16.25	£8,500.00

Fully dedicated cloud option with advanced, audited web browsing services. For organisations that require the highest levels of assurance and audit. This option provides dedicated compute, a large storage facility, etc. It is charged at premium times 1.4.

There is an on-boarding charge for this service. This is to enable your organisation to be able to consume the service and includes training and guided build workshops to streamline the on-boarding. The on-boarding charges are one off charges that are incurred at service commencement.

On Boarding	
Service	On boarding
Web Gateway Service up to 100	£1,700.00
Web Gateway Service up to 250	£2,500.00
Web Gateway Service up to 750	£3,500.00
Web Gateway Service up to 1000	£5,500.00
Web Gateway Service up to 2000	£7,500.00
Web Gateway Service up to 5000	£12,500.00
Web Gateway Service above 5000	£15,500.00
Browsing Image/Virtual browsing up to 100	£1700.00
Browsing Image/Virtual browsing up to 250	£2500.00
Browsing Image/Virtual browsing up to 750	£3500.00
Browsing Image/Virtual browsing up to 1000	£5500.00
Browsing Image/Virtual browsing up to 2000	£7500.00
Browsing Image/Virtual browsing up to 5000	£12500.00
Browsing Image/Virtual browsing above 5000	£15500.00
Secure File Transfer	£3500.00
Dedicated cloud	£7500.00

OPTIONS

Managed VPNs – used where the customer cannot provide their own VPN termination.

Optional fixed VPNs (per site/location/cloud)	
On boarding	Per Month
£850.00	£550.00

INCLUSIVE PROTECTIVE MONITORING SERVICE

The service comes with a protective monitoring service at the same service level as the Web Gateway Service (i.e. if the customer orders an enhanced Web Gateway Service they will receive enhanced protective monitoring for that service). The monitoring covers the components in the web gateway and can be extended to cover actual end user devices – see the separately provided e2e Protective Monitoring Service in the Digital Marketplace.

The protective monitoring service provides a complete security monitoring system, designed and built by e2e experts who have spent over 15 years designing and building security systems for major banks, telco's, payment providers and the military. e2e have taken the best of open source and commercial systems and blended them together to provide a formidable arsenal of security services which are applied to all of the components of the service.

An overview of the Protective Monitoring services is provided below but for further information and pricing please see the separately provided e2e Protective Monitoring and SOC Service in the Digital Marketplace.

- Log collection, storage and monitoring of all data flowing through the secure cloud connect
- Network based IDS using open source tools
- Traffic monitoring and intelligent traffic analysis (i.e. detects and classifies traffic based on its type not it's port number – e.g. detects data tunnelling and applications using nonstandard ports, exfiltration and other data leakages)
- Packet capture and analysis to enable investigations into alerts and to support incident response
- DNS monitoring to detect DNS lookups to known or suspected malware or other suspicious domain names
- Botnet monitoring – hunts for and alerts on any type of connection known to be used by botnets
- Web and email threat monitoring – monitors access to the Internet and emails and hunts for known threats and signs of potential threats in web site browsing, URLs and emails
- Threat indicator monitoring and latest threat intelligence monitoring
- Geographic analysis of all attacks and traffic
- Cloud-focused service design that provides monitoring of the latest cloud based threats and intelligence
- Fully managed cloud service that can be provided with varying levels of customer involvement as appropriate
- In depth reporting on all aspects of the service
- Threat detection across a wide range of traffic – web, SMTP, HTTP AND HTTPS inspection
- Dynamic Asset Management

ADDITIONAL BANDWIDTH

Additional Internet Bandwidth		
Resilient 100 Mbit/s access, DDOS protected	Per Month	£400.00

Resilient 1Gbit/s access, DDOS protected	Per Month	£2500.00
--	-----------	-----------------

The service includes bandwidth – the charges above are for circumstances where customers demand more bandwidth to be added on top of that provided.

OTHER SERVICES

A range of other services are available that can be used to perform tasks such as assisting you with the roll out of VPNs, connecting the service to active directory or certificate services for user authentication or to assist with design aspects of the service. These are priced per day as per e2e's SFIA rate card.

Other Services		
Design effort per day		£900.00
Service training per day		£900.00
Ad hoc support per day		£850.00
User authentication integration (e.g. mobile VPN to customers' active directory per day)		£850.00
Advice and consultancy per day		£1,050.00
