

e2e Secure Cloud Web Gateway Service - Terms and Conditions Document

Service Specific Terms and Conditions

On-boarding	On-boarding is included with the following scope: e2e will support the customer in connecting/enrolling the requested fixed VPNs and mobile devices into the service as well as assisting in connecting to an existing customer active directory or other authentication service.
Off-boarding	Off-boarding is included with the following scope: all access will be revoked and any e2e cloud components containing customer data will be wiped and factory reset. All customer data will be removed. The customer is expected to migrate their own data out of the service prior to the end of the service. Optionally we can also migrate the data out of the service (such as historical access logs) on a time and material basis.
Backups	All e2e managed devices are backed up to support the availability of the service.
Disaster recovery	The service can be split across two UK datacentres if required.
Service lead time	Typically 1-10 working days from acceptance of order.
Minimum term	The service has a minimum term of 3 months.
Early exit charge	One month of service cost.
Termination charge	Termination before initial 3 months incurs early exit charge
Consumer responsibilities	The control and management of end users of the service and any components installed or provisioned on customer equipment including end user devices Provision of any non-internet connectivity to the e2e cloud (i.e. customer WAN links, etc)
Technical requirements	To manage the service the user is required to enrol with our two-factor authentication service and connect to the service using one of the following: Windows, Linux, MAC, IOS, Android, Blackberry and Symbian To create a fixed VPN the customer is required to either provide a CESG CPA foundation level approved device (IPsec Security Gateway) or similar approved VPN solution.
Networks and Connectivity	e2e services are designed and assured to connect to the following networks. Please contact e2e for further details. <ul style="list-style-type: none"> • Public Services Network (PSN) • Government Secure intranet (GSi) • Police National Network (PNN)

	<ul style="list-style-type: none"> • New NHS Network (N3) • Joint Academic Network (JANET)
Ordering and Invoicing	Monthly in arrears by Purchase Order or Direct Debit.
Data restoration/service migration	Data can be migrated into and out of the service using the VPN access methods provided. e2e can assist with this process on a time and materials basis if required.
Financial recompense model	If the service level falls below the stated availability (excluding planned or emergency maintenance and excluding any fault that is not the responsibility of e2e or e2e components), consumers will be eligible for a service credit. Service credits are provided as professional service credits that can be used for any support, design or security activities and are calculated at a value of 10% of service spend on the particular service.
Training	The customer can choose to purchase training days.
Trial Service	There is a trial service available. Please contact us for details.
